Emergency	
Police	110
Ambulance	112
Fire brigade	112
Out-of-hours medical service	116117 <p>The emergency number 116117 connects you to the out-of-hours medical service. This is the right number to call if someone needs immediate medical assistance but the situation is not life-threatening – and if regular GP surgeries are closed. Here you can find out which out-of-hours surgery is open in your area. In special emergencies – for example, if someone is too ill to get to a surgery – the emergency service can send an on-call doctor to their home. 116117 is the number to call, for example, for non-life-threatening conditions such as lumbago, severe vomiting or diarrhoea, earache, tonsillitis, a cold with fever and aches and pains.</p>
